3rd, 7th, 10th, 14th April 10am – 2pm

La Salle Hotel School Liverpool's Food for Growth Project is offering an exciting programme of gardening and cooking workshops for 16 young people (ages 14-16), during the Easter break at our centre on Carr Lane East in Croxteth.

Taking produce from plot to plate, students will discover new skills through an interesting and highly rewarding learning journey, having fun with food and meeting new friends. Students will be invited to learn about the origins of our food, by exploring the growing of both fruit and vegetables in a sustainable way at the La Salle Kitchen Garden in our three large polytunnels, growing beds and fruit trees - and how growing can be easily tried at home. They will identify and learn about different plants, growing cycles, beekeeping, composting, taste-testing and will even seed their own food-producing plant to take away, nurture at home and see it grow!

Students will then connect sustainable food-growing with cooking in La Salle Hotel School's professional-standard kitchen, by learning how to prepare fresh produce that is grown on-site and cook nutritious meals. Kitchen sessions, led by our Head Chef, will cover the basics of nutrition and food preparation, chopping vegetables, preparing sauces, baking bread and many other techniques. They will cook a meal for the group to share for lunch, and even cook a hot meal to take home to family.

Sessions will take place over the two weeks, on Mondays and Fridays during the Easter Half Term Break.

Each session will be split into two parts, with groups spending two hours in the Kitchen Garden with our Garden Teacher, Sandra - and two hours learning about cooking with our Head Chef, James.

Speke Adventure Playground have an additional two satellite centres, Speke Ambrose Youth Base (East Speke) and Speke All Saints (West Speke) who both offer X 2 play and youth sessions per week. These centres were set up in order to bridge the gap in the local area due to the size of Speke, with an aim to reach more children and young people. Having these additional services means that Speke Adventure Playground can provide more opportunities, ensure that children have access to hot food, free, and safe services.

This Easter, our satellites will run x 1 excursion per week and x1 play and youth session of an evening. The excursions will follow our delivery plan which is Arts, Culture and Diversity and therefore will have a focus on theatre trips. The sessions will provide a hot meal and snack for all young people taking part.

In addition to these services, we have a Detached Team who work on the streets with young people x 3 evenings per week. This team is not funded

throughout the holidays but the HAF enables our service to operate and guarantees that young people (mostly aged 13+) are engaging in services with professionals and have access to food. Feedback over the past year with regards to the young people has been that they have all presented hungry during the school holidays and so it is our passion to ensure they have access to a hot meal when working with our Detached Team. The Detached team will also offer a trip / excursion to young people aged 13+.

Adlam Park (All centres colour festival celebration) Thursday 6th April 10am - 4pm

For our Easter 2023 programme, Sports Alive will be focusing on the Indian festival of Holi. Holi is a festival which celebrates spring, love, and new life. It is also known as the Festival of Colour. For this week-long celebration of Holi, Sports Alive will be focusing on celebrating the Festival of Colour and learning more about Indian cultures and traditions. Our sessions will be four hours long for four days a week.

In the sessions, we will be doing the following activities:

- Young people will be learning how to make and prepare traditional Indian food and snacks such as samosas, Indian curries, naan bread with sauces, onion bhajis, and chicken and vegetable kormas. These activities will allow young people to learn more about Indian food and learning how to make

healthy Indian food. Young people will be able to take home food they have made for themselves and their families.

- Young people will be able to learn how to make their tie-dye t-shirts and bandanas. This will allow young people to learn how to use different colours to create their items of clothing and will relate to the festival of colour. The t-shirts and bandanas will also be used for the mini fun day on Thursday 6th April. Young people will wear their tie-dye t-shirts on a fun day to celebrate the Festival of Colour. Young people will be able to learn more about the importance of using colours and how it relates to Indian culture and tradition.

- Young people will be able to participate in a mini fun day on Thursday 6th April. The fun day will be a competition-based day, with young people being split into teams. Young people will participate in mini-games such as go-kart racing, sports relay races, mini-golf races, and mini-sports events. The day will end with all teams coming together to participate in a large colour war, in which Sports Alive staff will allow young people to throw safe appropriate paint at each other to celebrate the Festival of Colour. As this is how Holi is traditionally celebrated, this will allow young people to learn and understand different cultures and traditions, as well as have fun and getting to experience a new activity as a group. Young people from Tuebrook and Everton will also be invited to come down to the mini festival.

During the sessions for the Holi festival week preparation, young people will be able to learn how to make and prepare their homemade Indian food. This will allow young people to learn more about making healthy choices and seeing how they can make healthy food and snacks by themselves, which is much healthier. Young people will also learn more about different cultures and traditions, as well being able to experience new food and learn more about homemade cooking. An example of the food young people will make and prepare is:

- Homemade vegetable and chicken samosas. Young people will prepare the vegetables and chicken by themselves.
- Homemade chicken curry with vegetables
- Homemade vegetable curry
- Homemade onion bhajis filled with vegetables

These sessions will be based on educating young people about making healthy Indian food, learning more about different cultures, and being able to have a healthy nutritious meal whilst on the session.
