

Split Perspectivz CIC

We have been in operation since 2020. I am a children's book author and songwriter who has worked with children for about 10 years, and have two of my own, one with Asperger's. My colleague, Jude Lennon is a former teacher and a champion of reading. We have delivered 100's of workshops in many settings on a range of topics, and over 25 thousand book boxes to Merseyside children on Free school meals, and areas without funding. Jude and I are on the Liverpool Literacy core planning group.

We provide workshops to inspire interaction, confidence, team work, achievement, problem solving, empowerment through creativity and storytelling, using giant den building activities, art and props. Resource packs and boxes containing papercrafts, certificates, activities, reading materials, stickers and stationery, access to online features.
